INTRODUCING IDCHECK

**Shared Branch**  
 is now easier and  
 more secure!
**Protecting You from Fraud with IDCheck**

If you bank at a Shared Branch location, a teller will now identify and authenticate members in the branch using a QR code, scanned with your smart phone and one-time passcode, multi-factor authentication verification. This additional layer of authentication will be used for withdrawals, transfers, official check purchases and account inquiries – at minimum.
